EasyAXS

EASY TO CONNECT

EasyAXS PLUG & PLAY – WHAT COULD BE EASIER !

Installing and connecting to your EasyAXS app, couldn't be easier. No more external gateways to configure, or complex wiring. With the **EasyAXS plug & play** B-EBA connectivity modules, connecting BFT solutions is quick and easy.

- Plug the B-EBA module into the **EasyAXS** enabled control panel – no wiring required.
- Scan the module QR code with your smart phone.
- Connection to your smart phone is established quickly via Bluetooth.
- In a matter of seconds, you're connected!

Thalia BT A control panel & B-EBA connectivity module.

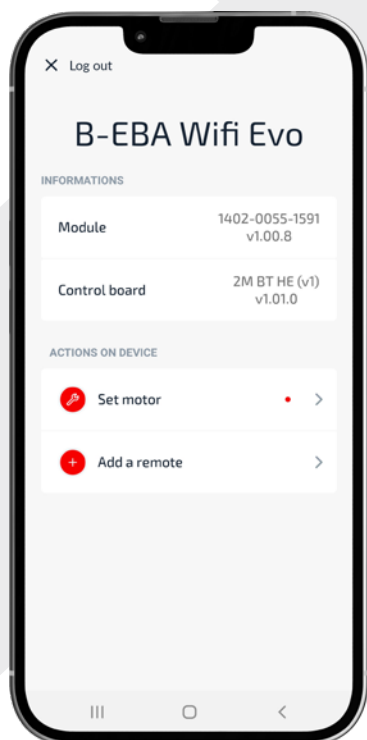

EasyAXS

EasyAXS BRINGS SEAMLESS BLUETOOTH SET UP FOR BFT SOLUTIONS

All of the B-EBA modules have **Bluetooth connectivity**, allowing you to connect directly from your smartphone.

EasyAXS enables you to connect to the control panel even without a mobile or WiFi signal. Simply power up the panel, plug in the B-EBA module, and configure the gate system directly from your smartphone.

EASY TO CONNECT

• PLUG & PLAY

The B-EBA connection modules are quick and easy to install with plug & play connectors.

• CONNECTIVITY CHOICE

Choose between mobile or WiFi B-EBA modules depending on the installation.

• QR CODE SCANNING

Quick and error free connection with QR code module scanning.

• ALWAYS CONNECTED

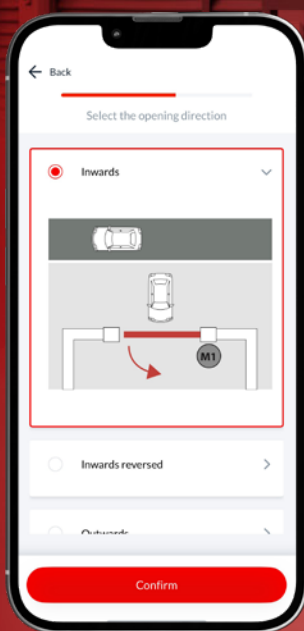

The B-EBA module will guarantee connection to your smart phone via Bluetooth.

EasyAXS

EASY TO SET UP

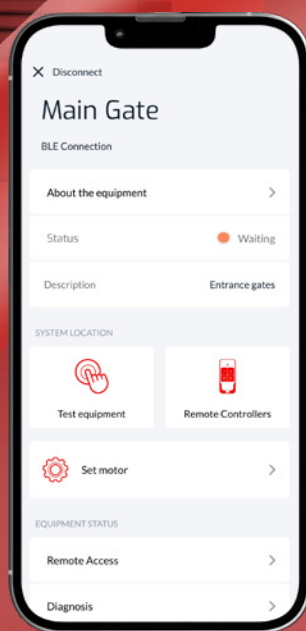

EasyAXS CONNECT, REGISTER AND COMMISSION THE GATE SYSTEM IN MINUTES

EasyAXS streamlines the gate automation commissioning process, enhancing accuracy and saving you valuable time. The app instantly recognises the control panel model, guiding you through an intuitive setup process to commission the gate system quickly.

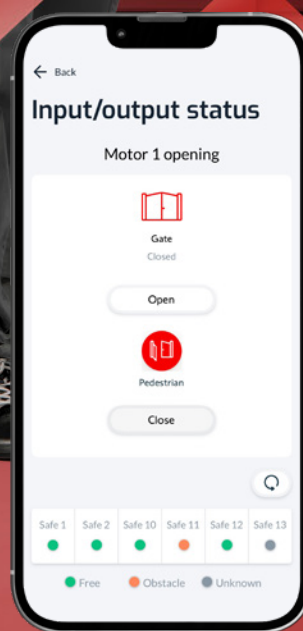

EASY CONFIGURATION

Configure gate operator parameters with the help of guided diagrams.

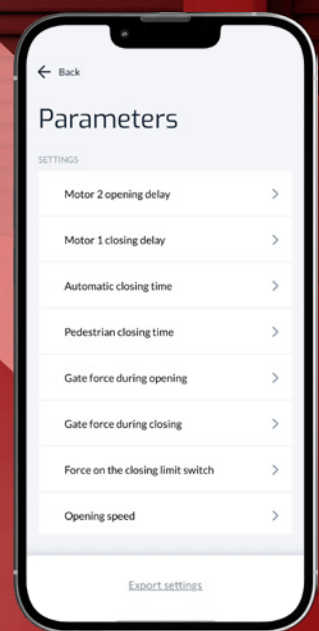

QUICK SELECTION

Set, test, amend settings or add remote control functions.

FAULT FINDER

Easily identify faults and pinpoint their connections.

PARAMETER LIST

Review and amend full list of operator parameters.

EasyAXS MAKES BFT SOLUTIONS QUICK TO INSTALL AND SET UP

The **EasyAXS** app makes automation setup faster and more convenient. No more struggling with small screens or time-consuming manual tasks - now, you can configure everything effortlessly, intuitively, and comfortably right from your smartphone.

Additionally, you can set up all your gate systems with **EasyAXS**, making the process more efficient and saving you time.

EASY TO SET UP

- **SIMPLE REGISTRATION**

Register and store customer details using the EasyAXS app.

- **EASY CONFIGURATION**

Control panel and operator set up is quick & easy as EasyAXS guides you through set up.

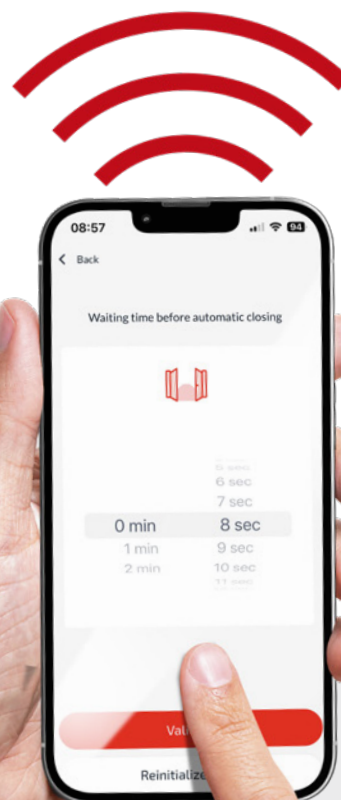

- **FULL SMART PHONE CONTROL**

Set up, check and modify all parameter settings directly from your smart phone.

- **SMART SET UP**

View and identify faults during installation that can be rectified quickly.

"OK Google, open the gate"

EASY TO CONTROL

Compatible with:

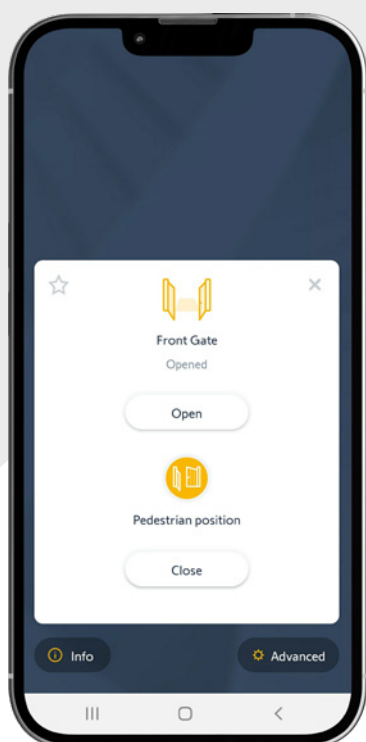

EasyAXS OFFERS YOUR CUSTOMERS A HIGH QUALITY CONTROL SOLUTION

EasyAXS not only simplifies your life, it also enhances your customers gate automation experience.

EasyAXS allows your customers to connect to their gate system with the Somfy TaHoma app, which offers a high quality, simple and intuitive control solution.

Whether at home or on the go, they can effortlessly control and monitor their entrances via their smartphone, anytime, anywhere.

With Google Assistant and Alexa integrated, your customers can manage and monitor their gate system using voice commands, even when they're away from home.

EASY TO CONTROL

- **SIMPLE REGISTRATION**

Send your customer a TaHoma registration invite to allow direct control of the gate system.

- **REMOTE OPERATION**

Control the gate system remotely through the TaHoma app.

- **REAL-TIME GATE STATUS**

The TaHoma app allows your customers to view the real-time status of the gate (open or closed).

- **ALWAYS UP-TO-DATE**

Notifications and automatic updates ensure the TaHoma app is always up-to-date.

- **READY TO GO**

The GSM B-EBA module is 4G ready and preloaded with 1GB of data.

EasyAXS

EASY TO SERVICE

EasyAXS MAKES SUPPORT SIMPLER THAN EVER, EVEN REMOTELY

The **EasyAXS** app's remote intervention feature makes providing after sales service faster and more convenient.

Service tasks can be handled remotely, saving you time and money by reducing the need for on-site visits.

Not only does this add convenience for you, but it also improves your service response, allowing you to react faster and more efficiently to your customers.

EasyAXS SERVICING:

A complete and centralised overview of your gate automation projects – even multiple gate systems at the same site.

In app fault feedback indicating if there is an issue with the system.

Diagnose problems/faults and remotely modify the gate system settings with your smartphone.

The **EasyAXS** help support tool provides recommendations and tips to quickly resolve detected issues, helping you save time.

Management of remote controls by scanning a QR code to add, delete and modify control functions, all done remotely.

Send service reports by email directly to your customer from the **EasyAXS** app, detailing the work/service carried out.

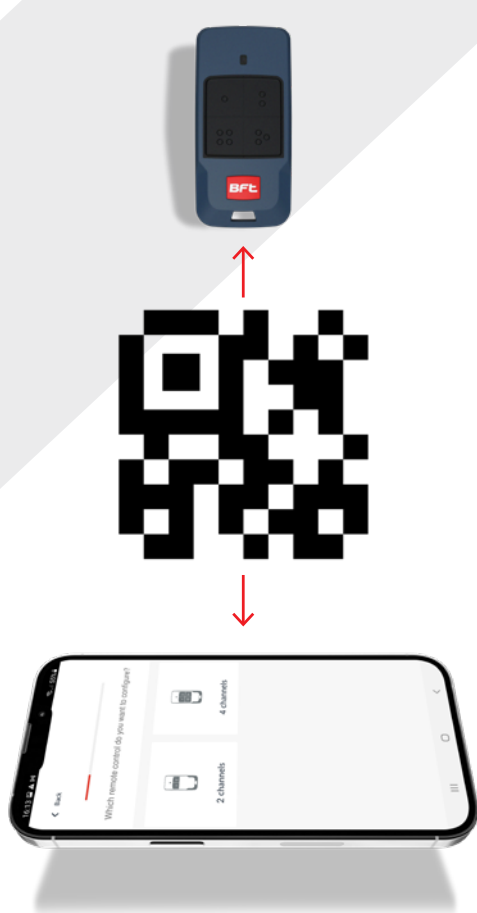

EasyAXS DOG ATE THE REMOTE? WE'VE GOT YOU COVERED

Managing remote controls has never been easier, with the **EasyAXS** remote programming function.

You can pair a new remote directly from your smartphone by simply scanning a QR code. Assigning a favorite function to each button is a breeze, and you can update the selection anytime.

Additionally, you can manage the list of remote controls stored in the receiver's memory - add, remove, or suspend/delete any remote control with ease. Need to replace multiple remotes? All settings are stored in the cloud, making the process just a click away.

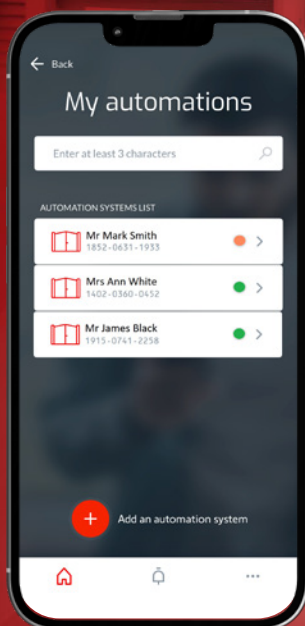

EasyAXS

ENHANCED SERVICE

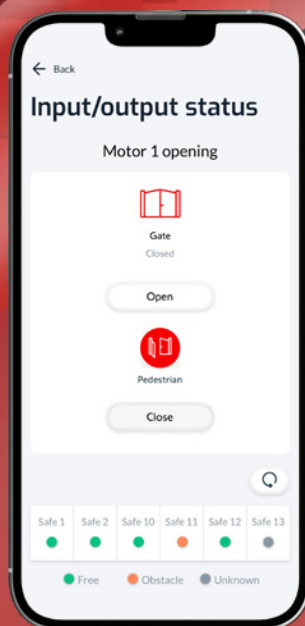

EasyAXS ENHANCE BOTH YOUR SERVICE AND THE VALUE YOU PROVIDE FOR YOUR CUSTOMERS

Imagine being able to alert your customer to a potential issue before they even notice it themselves?

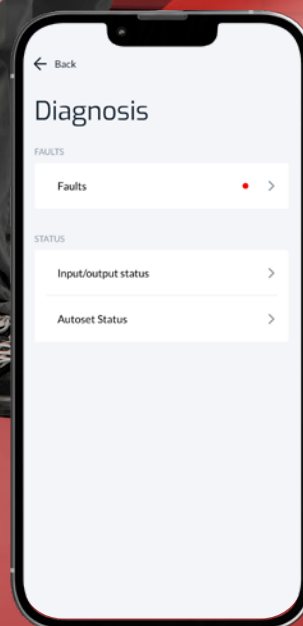

EasyAXS sends real-time notifications whenever an issue arises with the gate automation system, allowing you to proactively assist your customer in resolving it.

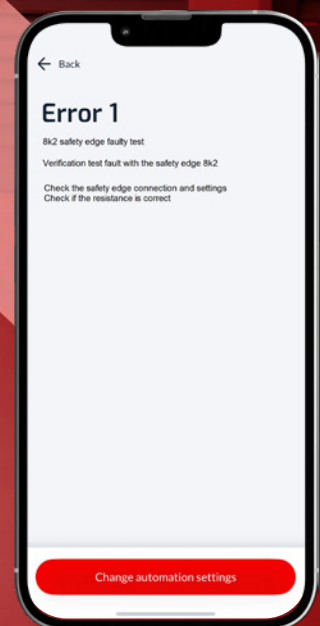

FAULT INDICATION
Receive notifications when a fault occurs on a customer's gate system.

FAULT IDENTIFICATION
View in real time the panel terminals and identify where the fault is present.

FAULT DIAGNOSTIC
Focus on the specific fault to identify the potential issue.

FAULT FINDER
View troubleshooting guidance on what the cause may be and the solution to resolve it.

EasyAXS A NEW GENERATION OF ENERGY EFFICIENT CONTROL PANELS

BFT cares about the environment.

Our product design and development process is focused on improving energy efficiency and reducing the environmental impact of products across their entire life-cycle.

The new generation of BFT control panels are environmentally friendly and energy efficient. With stand-by power consumption at <0.5W, you can offer your customers a gate automation system that is highly efficient and saves them money* in comparison to alternative inefficient automation systems.

**90% energy saving compared to system with an 8.5W stand-by power consumption panel and based on residential installation operating for 5 cycles per day.*

ELECTRONIC COMPONENTS

Select specific components which reduce CO2 impact of controls and sensors.

RECOURCES

Made with materials that respect environmental and health requirements.

DURABILITY

Improve dismantability or battery life for longer life span.

PACKAGING

Made by favoring recycled, renewable and recyclable materials.

ENVIRONMENTAL DECLARATION

Share product's PEPecopassport® verified externally by Bureau Veritas.

EasyAXS

EASY CONNECT. EASY ACCESS.

The new connectivity solution which boosts the potential of BFT products and services to make access automation smarter and easier to use for both installers and end users.
